## Texas

Rank in 2009: 11
Rank in 2008: 13
Rank in 2007: 17

Texas' state highway system is ranked $11^{\text {th }}$ in the nation in overall highway performance and efficiency in the latest Annual Highway Report by Reason Foundation. Texas ranked $13^{\text {th }}$ and $17^{\text {th }}$ in the previous two reports.

With 80,212 miles under state highway control, it is the second-largest system in the country-just slightly behind North Carolina. Despite its large size, this system has performed well over the years, ranking consistently in the top 20 since 2000.

Texas ranks $13^{\text {th }}$ in deficient bridges, $26^{\text {th }}$ in urban interstate pavement condition, $27^{\text {th }}$ in rural interstate pavement condition, $35^{\text {th }}$ in fatality rate, and $39^{\text {th }}$ in urban interstate congestion.

Texas' per-mile spending is almost 20 percent below the national average and it manages to beat the national average in every category except urban interstate congestion (4 percent worse than the average) and fatality rate ( 17 percent worse than the national average).

| Texas | State Data |  |  | State Rank |  |  | Ratio to U.S. Data |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  | 2007 | 2008 | 2009 | 2007 | 2008 | $\mathbf{2 0 0 9}$ | 2007 | 2008 | 2009 |
| Capital-Bridge Disbursements per Mile | 120,372 | 88,539 | 66,883 | 38 | 31 | $\mathbf{2 0}$ | 1.57 | 1.15 | 0.84 |
